FYP Logbook Entry Sheet

Meeting No: 6   **Date:** 26 Nov 2023

Start Time: 12:00 PM   **End Time:** 02:00 PM

Items Discussed:

A. We discussed UML diagrams like System architecture, DFD, ERD, Use-case, Sequence, Context, Activity diagram etc.

B. A detailed discussion about GitHub where repository creation, git push and pull.

C.

Achievements:

A. This week I learned about the Activity diagram, Use-case diagram, RE-diagram Sequence diagram, Context diagram etc.

B. Archive the project structure for FYP development and documentation.

C. Learn about GitHub where repository creation and data push/pull from GitHub desktop.

D.

Problems:

A. Problem with design for RE-diagram, Sequence diagram and system architecture.

B. Confuse the class diagram where how many classes are generated.

D. The expanded use-case diagram was designed for each feature, but I don't know how to design it.

Tasks for the Next Meeting:

A. Create the GitHub repository for the Final Year Project with proper format.

B. Change the mistake UML diagram and complete it.

C. Research about database and installation in the device.
